GET PAID TO EARN YOUR MSBA IN THE USA

The UofL Master of Science in Business Analytics
STEM-Designated, SAS Certified

I have never been to the USA before and had multiple questions at every stage. Everyone at UofL has been so patient and prompt in responding to all my questions. We have had so many meals and gatherings with students from India and students from my MSBA. I couldn’t feel more comfortable and welcome.

Competitive Paid Internship and Capstone Project

A competitive internship opportunity and capstone project provide real-world business analytics experience. Students work with real datasets solving business issues.

Internship
The MSBA offers an 11-month, competitive, paid internship opportunity with an average salary of $25,000 (optional and not guaranteed). International students who earn an internship are eligible for CPT immediately. In addition, the MSBA is a STEM-designated degree which qualifies international students for 36-month post-completion work authorization in the USA.

- Up to 11 months in duration, with opportunities for up to three years of CPT
- Unique partnerships with College of Business and reputable companies

Capstone
A capstone course is required for all students. The capstone course provides students with the opportunity to work with businesses to solve a real business problem, boosting their resume. They gain experience with the analytical demands of real business situations.

All of our graduate programs include the Lifetime Career Support Promise. Any time in your career, come see us for access to resume reviews, career and interview coaching, our job boards, and more—All available at no cost.
