MASTER THE LANGUAGE OF BUSINESS

UofL Master of Accountancy

UofL MAC-UNLOCK DATA

The UofL College of Business Master of Accountancy (MAC) offers the essential tools, resources, and support to develop professionally and enhance your accounting skillset. Our School of Accountancy program holds the prestigious distinction of being separately AACSB accredited – an accolade achieved by only 2% of the accounting programs in the world.

With business placing an increased premium on analytics, the UofL MAC unlocks the narrative behind financial and nonfinancial information and how to share its story effectively.

GRADUATE CPA-READY MASTER OF ACCOUNTANCY (MAC)

CURRICULUM

The UofL College of Business Master of Accountancy (MAC) program is a 34-credit hour program aimed at individuals planning to begin their careers in public accounting or positions in corporations that value the CPA certification. Designed with the working professional in mind, this degree offers a convenient evening class schedule (with occasional Becker CPA Review program meetings).

SKILLSET FOCUS

ACCOUNTING:

Develop a broader perspective of accounting and financial reporting.

TAX:

Prepare students to develop skills and abilities needed to identify and solve complex tax problems and recognize tax planning opportunities.

DATA ANALYTICS:

Prepare students to develop specific skills for how to prepare, visualize, and understand patterns in data within the accounting field.
